

REBUS REMIX - HOME EDITION by Dart

In Rebus Remix, players use tiles to spell the answers to clues.

The tiles themselves are either letters, or icon tiles which represent words. The icon tiles have drawings, and they represent words of *approximately* three letters. Rebus Remix does not deal in sounds; icon tiles represent the letters in the word they represent. Once you know what an icon's meaning is, that meaning never changes.

All the answers to the clues are single, uncapitalized words in 11C, though they may be clued in a capitalized form. They are also at least four letters long and at least two tiles long. For example, the tiles:

...answer the clue "Actor Nicolas". This answer is four letters long and two tiles long, and the name also appears uncapitalized in 11C as a word.

There are details of the tiles worth looking for. Although the **AGE** tile above shows an entire birthday cake, there are red arrows pointing to the aspect of the picture that you should pay attention to.

Some tiles show two opposites side by side. One side has the normal white background and a green checkmark under it, and the other is shaded out and has a red X. This tile represents the unshaded half of the picture.

If you do a lot of these puzzles, some tiles may become familiar to you, but be careful! Some icons tiles may look similar, but they can be different in important ways. Look closely.

This .pdf contains Game #1 of Rebus Remix, which appeared at the 2009 NPL convention in Baltimore. I hope you enjoy the puzzles.
