

REBUS REMIX tiebreakers - HOME EDITION by Dart

In Rebus Remix, players use tiles to spell the answers to clues.

The tiles themselves are either letters, or icon tiles which represent words. The icon tiles have drawings, and they represent words of *approximately* three letters. Rebus Remix does not deal in sounds; icon tiles represent the letters in the word they represent. Once you know what an icon's meaning is, that meaning never changes.

All the answers to the clues are single, uncapitalized words in 11C, though they may be clued in a capitalized form. For these tiebreaker rounds, they are also at least **eight** letters long and at least **three** tiles long. For example, the tiles at left answer the clue "Actor Nicolas". This answer is only four letters long and two tiles long, but the name does appear uncapitalized in 11C as a word.

There are details of the tiles worth looking for. Although the **AGE** tile above shows an entire birthday cake, there are red arrows pointing to the aspect of the picture that you should pay attention to.

Some tiles show two opposites side by side. One side has the normal white background and a green checkmark under it, and the other is shaded out and has a red X. This tile represents the unshaded half of the picture.

The exclamation point speech bubble indicates that a creature is saying something, and it is that word that should be used as the meaning for the tile.

A speech bubble with a flag image in it tells you that the meaning of the tile is as the image would be described in that part of the world. Note that speech bubbles may appear on tiles that are neither exclamation points nor flags; these simply represent speech.

If you do a lot of these puzzles, some tiles may become familiar to you, but be careful! Some icons tiles may look similar, but they can be different in important ways. Look closely.

There are some modifier tiles which are frequently used in tiebreakers. You are not required to use any of them in forming the solution. Their meanings are:

The Reverse tile reverses the order of the letters in the icon tile to its left. For example, the tiles on the left answer the clue "Pushpin relative".

A letter removal tile removes a particular letter from the icon tile to its left. For example, the tiles on the left answer the clue "Chowder ingredient".

This .pdf contains all of the tiebreakers that have been in Rebus Remix used since the tiebreaker rule was introduced at the 2010 NPL convention in Seattle. I hope you enjoy the puzzles.
